RE: 2019 Bayer Fund Opportunity Scholarship Program

Bayer Canada – Crop Science Division is pleased to announce details of its 2019 Bayer Fund Opportunity Scholarship program, celebrating our 28th year. This year's program highlights the tie between agriculture and food by offering scholarships to students entering either agriculture or food-related studies.

Enclosed you will find a poster and an application form related to the Bayer Fund Opportunity Scholarship program. We would encourage you to share this information with all eligible students.

This year, Bayer Canada – Crop Science Division estimates it will provide approximately 65 scholarships to deserving high school students across the country entering their first year of post-secondary education in agriculture, food science or culinary arts, at a Canadian college or university. Each scholarship is valued at \$1,500 and will be awarded to students who meet the criteria set out in the application form.

Complete applications, including an application essay, must be post-marked **no later than May 31, 2019.**

If you require additional application forms, brochures or posters, please call our general inquiries line at (204) 985-1000 or visit cropscience.bayer.ca/opportunityscholarship.

Sincerely,

BAYER CANADA – CROP SCIENCE DIVISION
